

Moodle Configuration

In order for PEMS to function as a cohesive system, Moodle courses and configurations must be aligned to the school architecture.

Terms - the length of a school term will influence the length of a Moodle Class, or rather how much work is contained in the class. A School with a term length of 18 weeks will required Moodle courses with 18 weeks worth of work.

Course ID - the SIS requires the Course ID to be related to the Class ID manages in the SIS. Changing Course ID will break integration between the SIS and Moodle

Competencies -

Revision #1
